

WHAT ARE THE ZQ300 SERIES MOBILE PRINTERS?

Affordable little mobile printers that deliver big business value.

Whether your workers are inside or outside the four walls, there is a ZQ300 Series mobile printer that will meet their needs. Your workers get all the features they need to maximize productivity and free up time to better serve your customers — without breaking the bank. You get class-leading battery power that eliminates battery changes during shifts, plus the versatility to connect to virtually any Bluetooth device — Zebra as well as Android, iOS, Windows CE or Windows Mobile devices. You get real business durability to handle all day every day use inside and outside the four walls. And you get plenty of options that make it easy to remotely manage all of your printers, no matter where they are. The ZQ300 Series — midrange mobile printing redefined.

ZEBRA

WHY SHOULD YOU BUY THE ZQ300 SERIES?

TOP 5 CUSTOMER BENEFITS

1

Go green and get green.

When you participate in our trade-in program, we'll give you a rebate of \$50 for every Zebra or other manufacturer's printer and \$10 for each qualifying battery — it's like getting paid to help protect the planet. And when you order a Zebra OneCare service contract, we'll pay you even more — \$25 per contract — for a total rebate of \$85 per printer.*

(Printers must power up and include the printhead.)

2

So many hours of power.

Simply put, when you choose the ZQ300 Series, you get better battery technology. Other devices provide the same level of power at all times. But our Power Smart Print Technology™ knows exactly how much power to use to deliver the best printing quality. The result? Power consumption is reduced by as much as 30% — enough power for a third of a shift. And the printer automatically enters sleep mode when idle, providing even more power savings.

3

Get X-ray vision.

You can't manage what you can't see — so we help you see it all. Whether your printers are connected by Wi-Fi or Bluetooth, or are inside the four walls or out in the field, with our portfolio of printer management tools, you can monitor, update and troubleshoot them all. And you can manage it your way — with our complementary Bluetooth Management, or our fully-featured Printer Profile Manager Enterprise, or with your existing Mobile Device Management software.

4

If your budget is tight, we've got the printer that's right.

Now you can get the print quality that Zebra is famous for — without breaking the bank. If you're looking for a mid-range printer, you just found the best. You get receipt and label printing, so one printer can meet more business needs. And you get a printer that stands out in its class, offering the slimmest profile, the most rugged design, the fastest Wi-Fi and Bluetooth connections, convenient USB charging and much more.

5

Better together.

When you buy Zebra mobile computers and printers, you get more value. The same cigarette power adapter works for both devices, simplifying accessory management. Our unique universal ShareCradle charges both your Zebra mobile computers and your Zebra ZQ300 Series printers, simplifying and reducing the cost of backroom management. And with Tap & Pair and Scan & Pair, two Print DNA complimentary apps, it's ultra-simple to pair our mobile computers and printers.

APPLICATIONS

Retail

- Receipts (Mobile POS)
- Price management
- Shelf labeling

Transportation & Logistics

- Proof of service/delivery/pickup
- Print Invoices
- Bag and Asset tags

Government (State & Local)
